

CORRIGENDUM TO THE POSTAL BALLOT NOTICE DATED 18th MAY 2024

To,
The Members of Godha Cabcon & Insulation Limited

The Company had circulated the Postal Ballot Notice dated 18th May 2024, that was dispatched on 21st May 2024, together with Explanatory Statement to the members of the Company, pursuant to the provisions of Section 110 read with Section 108 and other applicable provisions, if any, of the Companies Act, 2013 ("Companies Act"), read with Rule 22 of the Companies (Management and Administration) Rules, 2014 ("Rules"), (including any statutory modification or re-enactment thereof, for the time being in force), Secretarial Standard on General Meetings ("SS-2"), Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and other applicable laws and regulations, for seeking approval of members of the Company by way of ordinary/special resolutions through remote e-voting by way of postal ballot process.

This corrigendum is being issued to the Postal Ballot Notice ("Corrigendum") in respect of the point no. VI of valuation report dated 18th May 2024 obtained from Mr. Abhinav Rajvanshi, Registered valuer (IBBI/RV/06/2019/11765), ("Valuation Report"), which is referenced in the point number IV of the Explanatory Statement of Special Resolution pertaining to Item No. 2 as detailed in the said Notice.

The Members are requested to take note that during the process of obtaining of "In-Principle Approval" from National Stock Exchange of India Limited (NSE), NSE has instructed us to issue corrigendum regarding change in weightage distribution to valuation method along with justification for the same. Pursuant to the same, the Company has obtained an addendum to valuation report dated June 14, 2024, which sets out the change in weightage to the valuation method along with justification for the same and consequent change wherever needed in point no. VI of valuation report which is details as below. A copy of addendum is enclosed herewith for your reference and will be placed on the website of the company i.e. www.godhacabcon.com.

Valuer's Notes:

While we have calculated the values of the shares of the Companies under the Market Price method as the equity shares of the Company are listed on NSE, we have given the maximum weightage i.e. 98% to the market value method.

We have considered it appropriate to give the minimum weightage to the Asset Approach i.e. 1% since, the same ignores future projects and does not consider the market trends in valuation. For the present valuation analysis, having regard to the nature of the businesses of the Companies and the fact that we have been provided by the Companies with their projected financials, we have considered it appropriate to apply the DCF Method under the Income Approach to arrive at the relative fair value of the shares of the Company, accordingly we have assigned 1% weightage to DCF Method as Market Price method is more relevant method where the shares are listed on recognized stock exchange.

Revised:

Weights are allocated based on their significance, with the market approach receiving highest weight. This is because it accurately determines the value of frequently traded and listed companies. Hence, we have given it 60% weight. Further, the Asset Approach ignores future projects and does not consider the market trends in valuation and not reflect fair value. Hence, it has been assigned 20% weight. Additionally, we have assigned 20% weight to DCF method as it is based on future projection and doesn't look at relative valuations of competitors. Therefore, less weight has been assigned than the Market approach.

It may be pleased note that all other particulars such as issue size, issue price, maximum number of warrants to be issued and all other details remains unchanged.

For the sake of utmost clarity and have better understanding, the revised point no. VI of valuation report is reproduced after incorporating changes: –

VI. “CONCLUSION OF BUSINESS VALUE

The Fair Value of the shares of the Company has been arrived at by averaging the values arrived as per the different methods adopted.

The computation of the same is given by table below.
